

CLAIM AMENDMENTS

Claims pending:

- At time of the Office Action: Claims 1-14, 36-47 and 51-59.
 - Previously Withdrawn Claims: 15-35 and 48-50
- After this Response: Claims 37, 39, 47 and 51-53.

Canceled claims: 1-36, 38, 40-46, 48-50 and 54-59, without prejudice.

Amended claims: 37, 39 and 47.

New Claims: None.

The listing of claims below will replace prior versions of claims in the application:

1-36. Canceled.

37. (Currently Amended) An apparatus comprising an interactive television device configured to display a television program, wherein the interactive television device displays an interactive television mode indicator if the displayed television program supports an interactive television mode, the interactive television device activates the interactive television mode in response to a request from a viewer of the television program to activate the interactive television mode, and the interactive television device updates a channel status list to indicate that the television program is being viewed in the interactive television mode, and ~~An apparatus as recited in claim 36~~ wherein the interactive television device includes a plurality of tuning devices to maintain the interactive television

status for each channel.

38. Canceled.

39. (Currently Amended) An apparatus comprising an interactive television device configured to display a television program, wherein the interactive television device displays an interactive television mode indicator if the displayed television program supports an interactive television mode, the interactive television device activates the interactive television mode in response to a request from a viewer of the television program to activate the interactive television mode, and the interactive television device updates a channel status list to indicate that the television program is being viewed in the interactive television mode, and ~~An apparatus as recited in claim 36~~ wherein the interactive television device includes a video tuner to tune a current television program and a plurality of data tuners, wherein each of the plurality of data tuners tunes a television program previously activated in the interactive television mode.

40-46. Canceled.

47. (Currently Amended) ~~One or more computer-readable media as recited in claim 45~~ One or more computer-readable media having stored thereon a computer program that, when executed by one or more processors, causes the one or more processors to:

display a video program;

display an interactive video mode indicator if the displayed video program supports an interactive video mode, wherein a separate tuning device maintains the interactive video status for each video channel;

activate the interactive video mode in response to a request from a viewer of the video program to activate the interactive video mode; and

update a channel status list to indicate that the video program is being viewed in the interactive video mode.

48-50. Canceled.

51. (Previously Presented) An apparatus comprising an interactive television device configured to display a television program, wherein the interactive television device displays an interactive television mode indicator if the displayed television program supports an interactive television mode, the interactive television device activates the interactive television mode in response to a request from a viewer of the television program to activate the interactive television mode, wherein the interactive television device updates a channel status list to indicate that the television program is being viewed in the interactive television mode, and wherein the interactive television device includes a plurality of tuning devices to maintain the interactive television status for each channel.

52. (Previously Presented) An apparatus comprising an interactive television device configured to display a television program, wherein the interactive television device displays an interactive television mode indicator if the

displayed television program supports an interactive television mode, the interactive television device activates the interactive television mode in response to a request from a viewer of the television program to activate the interactive television mode, wherein the interactive television device updates a channel status list to indicate that the television program is being viewed in the interactive television mode, and wherein the interactive television device includes a video tuner to tune a current television program and a plurality of data tuners, wherein each of the plurality of data tuners tunes a television program previously activated in the interactive television mode.

53. (Previously Presented) One or more computer-readable media having stored thereon a computer program that, when executed by one or more processors, causes the one or more processors to:

display a video program;

display an interactive video mode indicator if the displayed video program supports an interactive video mode;

activate the interactive video mode in response to a request from a viewer of the video program to activate the interactive video mode; and

update a channel status list to indicate that the video program is being viewed in the interactive video mode;

wherein a separate tuning device maintains the interactive video status for each video channel.

54-59. Canceled.
